

Dear Student Government,

This letter is to formally notify you that I will be resigning as the Senator of Student Engagement for CSUCI's Student Government due to family and work responsibilities. Unfortunately, I don't have much for anything else other than my familial responsibilities, work, and my academics. I would like to thank Vice President Jazmin, President Daisy, Advisor Alatorre, Advisor Block-Weiss, and the rest of the Student Government for the opportunity of being a part of such an amazing team. I've enjoyed getting to know everyone and learning more about how our campus operates along with how we have a voice in these processes. Meeting with the UPAC committee, accompanying senators during their meetings/ events, and planning projects with Student Government has allowed me to blossom as a person and opened my eyes to the environment around me. Likewise, my time spent in SG helped me become more organized and motivated to work towards a change. I am more than excited to take these skills with me in my future career and academic life. This is not a goodbye and I wish Student Government continued success. I hope to stay in touch.

Sincerely,

Amanda Parks
