V. Public Forum

- b. Public forum is intended as a time for any member of the public to address the Senate on issues affecting any student(s) and/or organizations of California State University Channel Islands.
 - i. Geoffrey attended the meeting to speak on his efforts to establish a campus event for watching the upcoming presidential debates. He would like to see a panel of at least 3 professors across the political spectrum moderating the event. He hopes that this will help to promote political activity and engagement, and is seeking Student Government's assistance in gathering professors to take part in the event, and guidance in following the proper procedures. David asked Geoffrey for clarity on the activity that will make up the event. Geoffrey responded that he would like to see an event at which students will gather and watch at least one of the debates, with an hour long discussion afterward whereby students may become more informed and engaged with the issues presented in the national discourse. Nick expressed his support for the idea and proposes to merge voter registration with the debate event. Carissa also supported the idea and pledged to

help, perhaps developing incentives for students to go, as well as advertising. Ashley inquired as to whether Geoffrey has approached the CI Republican and Democrat clubs. He had not, but hoped that some members of Student Government may assist him that outreach. Vanessa asked about where he would like to have the event, and proposed contacting housing due to the large projector system. Geoffrey had originally thought to have it in the sub. Ben asked which debate he would like to center this event around, to which Geoffrey replied that he would like it to be either the first or third debate, and shared his contact info with the senators.

VI. Outstanding Business.

- a. None.

VII. New Business.

- a. Special Presentations:
 - i. Student Government Process Manual- David Ashley-
 1. David spoke about his and Steven's proposal for a Student Government process manual, which would set internal rules governing the regulations and procedures used by Student Government. This proposal would need to be approved by the Senate at a later date. David hopes the manual will provide consistency across Student Government processes by standardizing procedures regarding officer conduct, office hours, reports, formats for resolutions, and binder digitization. Manual would not apply to any other entity apart from Student Government. David wants to ensure accountability from all those within Student Government and provide a template for continuity within Student Government for years to come. Senator Vinas expressed support for this idea because of the structure it will provide for the next wave of Student Government officers. Senator Wilson asks about the difference between bylaws and the proposed manual; David: By laws are supposed to spell out what entity is, what the entity does, and who it is comprised of. David shared his motivation for creating the manual, which was that he believes the current by laws contain many things that have no place in them. Senator Walters asks: If approved, how would be these processes be amended in future? Dave: Amendment process will be left to the discretion of the Senate. Geoffrey asks about the degree to which these processes will be binding; David: Just as binding as by laws, though the Senate will determine how enforceable they will be if approved.
 - ii. Voter Registration- David Ashley:
 2. David briefly instructed the Senate on how to properly fill out voter registration forms to ensure that those registering at the school are in full compliance with the law. The forms must be filled out completely, and registering voters will need to provide either a drivers license or social security number. Forms must be signed with the correct date. All persons assisting in voter registration must fill out the section of the form stating so in its entirety. Forms must be mailed in within 2 to 3 days, or could be found invalid under the law. Jana stated that if information is left off the form regarding a person's previous registration that their forms may not be processed. Nick asked David about the rules regarding who can send in the forms; Dave: It is important to notify myself and Steven, so

that we may be certain procedures are being followed correctly. Steven noted that those wishing to send out forms can also drop them off at the front desk of the Student Union to have them sent out. David concluded by announcing that there will soon be an online tool for registering voters, which Student Government plans to take advantage of when it becomes available.
